

Subject: Security Alert: Suspicious Activity Detected on Your Account

Dear [Account Holder Name],

This is a formal notification regarding your account: [Account Number/Username].

Our security systems have flagged a recent login and activation attempt on your account, which has been dormant since [Date of Last Activity]. We are reaching out because this activity matches patterns often associated with unauthorized access.

Action Required:

If this was not you, please take the following steps immediately:

- Log in to your account and change your password.
- Review your contact information to ensure no unauthorized changes were made.
- Enable Two-Factor Authentication (2FA) if you have not already done so.

If you did perform this activation, no further action is required. However, we recommend reviewing your security settings to ensure your data remains protected.

For your protection, we have temporarily restricted [Specific Feature, e.g., withdrawals/transfers] until your identity is verified.

If you have questions, please contact our support team at [Phone Number] or [Email Address].

Sincerely,

The Security Team
[Company Name]
