RE: Response to Proposed Amendments to Liability and Indemnity Clauses

Dear [Client Contact Name],

Thank you for sharing your proposed revisions to the [Contract Name/Reference Number] dated [Date]. We have carefully reviewed your requested changes regarding the Liability and Indemnity sections.

After internal review with our legal and risk management teams, we are unable to accept the proposed modifications to these specific clauses. Our current positions on liability caps and indemnification obligations are set in accordance with our corporate insurance policies and standard risk allocation frameworks.

The original language provided in the draft ensures that risks are managed proportionally to the scope of services provided. Deviating from these terms would exceed our established risk thresholds and potentially invalidate our professional coverage for this project.

We remain very interested in working with [Client Company] and believe the other terms of the agreement are well-aligned. We respectfully request that you proceed with the original language regarding Liability and Indemnity so that we may finalize the contract and begin the project.

Please let us know if you would like to schedule a brief call to discuss this further, or if you are prepared to move forward with the initial version.

Sincerely,

[Your Name]
