Subject: Rejection of Proposed Alterations to Non-Solicitation Clause

Dear [Recipient Name],

Thank you for returning the draft of the [Agreement Name] dated [Date] with your proposed amendments.

After reviewing the suggested changes to Section [Number/Reference], specifically the alterations to the Non-Solicitation clause, we regret to inform you that these modifications are unacceptable to [Company Name].

The original wording of the Non-Solicitation clause is designed to protect our company's legitimate business interests, including our proprietary client relationships and the stability of our workforce. Your proposed changes would significantly weaken these protections and create an imbalance in our professional arrangement.

Please be advised that we require the Non-Solicitation clause to remain as originally drafted. We are unable to proceed with the execution of the agreement until this section is restored to its initial form.

We value our potential partnership and hope we can resolve this matter promptly. Please let us know if you are prepared to sign the original version or if you would like to discuss this further.

Sincerely,

[Signature]
