Subject: Availability for DevSecOps Automation Engineer Position - [Your Name]

Dear [Hiring Manager Name],

I am writing to formally express my interest and confirm my availability for the DevSecOps Automation Engineer position at [Company Name]. Having followed your organization's recent advancements in [mention a specific company project or tool], I am eager to contribute my expertise in automating security within the CI/CD pipeline.

My technical background includes:

- Designing and maintaining automated CI/CD pipelines using [Tools like Jenkins, GitLab CI, or GitHub Actions].
- Integrating security scanning tools (SAST/DAST/IAST) and container security into automated workflows.
- Infrastructure as Code (IaC) development using [Tools like Terraform, CloudFormation, or Ansible].
- Cloud platform management within [AWS/Azure/GCP] environments.

I am currently available to begin a new role starting [Date/Notice Period]. I am open to [Remote/Hybrid/On-site] arrangements and am available for interviews at your earliest convenience.

Thank you for your time and consideration. I have attached my resume for your review and look forward to discussing how my automation skills can support your team's security goals.

Best regards,

[Your Name]
