RE: Security Requirement Update for Fine Arts Policy Renewal - [Policy Number]

Dear [Client Name],

In preparation for the upcoming renewal of your Fine Arts insurance policy on [Renewal Date], we have completed a periodic review of the valuation and risk profile of your collection.

Due to the increased market value of your pieces and current industry standards, the following security enhancements are now required to maintain comprehensive coverage:

- **Alarm System:** Installation or upgrade to a dual-path central station monitored burglar alarm.
- **Fire Suppression:** Verification of functional smoke detectors and specialized fire extinguishers in all display areas.
- **Climate Control:** Implementation of humidity and temperature monitoring logs for high-value items.
- **Physical Security:** Installation of [Specific Lock Type or Security Film] on all entry points.

Please provide written confirmation or certificates of installation for these updates by [Deadline Date]. Failure to implement these measures may impact your premium rates or eligibility for certain coverage extensions.

If you have any questions regarding these requirements or would like to discuss alternative security measures, please contact our risk management department at [Phone Number].

Sincerely,

[Your Name]
