Subject: FINAL REMINDER: Mandatory Irrigation System Winterization

Dear [Customer Name],

Our records indicate that your seasonal irrigation system has not yet been winterized for the upcoming freezing temperatures. This is our final notice before the winter season begins.

Failure to drain your pipes and blow out the lines can lead to significant damage, including:

- Cracked backflow preventers
- Burst underground pipes
- Damaged valves and sprinkler heads

To avoid costly repairs and emergency service fees, please schedule your winterization immediately. We have limited remaining appointments available through [Deadline Date].

Action Required:

Please call us at [Phone Number] or visit [Website URL] to book your appointment today.

If you have already scheduled your service or have performed the winterization yourself, please disregard this notice.

Sincerely,

[Your Name/Company Name]
